

I support open Access – do you?

"The shared vision of the Faculty of Economic and Management Sciences is to be at the cutting edge of economic, financial and management education and research. The Faculty focuses on people and believes that it creates excellence by investing in its staff and students. Open Access supports the vision of the Faculty to excel in and contribute towards the development of a body of knowledge in our disciplines."

Prof Carolina Koornhof
Dean: Faculty of Economic and Management Sciences

"I support OA because of its ability to allow unrestricted sharing of research results in an online environment - free of charge. As research forms the core of an academic's career, it is important to share in the findings of research studies that have been conducted globally. OA has the possibility of stimulating research partnerships between individuals and institutions which will only benefit the future of scientific research."

Prof Yolanda Jordaan
Department of Marketing and Communication Management
Faculty of Economic and Management Sciences

"I support open access because knowledge is a public good. Hence, free access to published papers, as well as working papers, not only ensures maximum readership, but also, high level of citations. Thus, with open access, both the author and the audience are in a win-win situation."

Prof Rangan Gupta
Department of Economics, Faculty of Economic & Management Sciences

"Ek ondersteun Oop Toegang want dit is vir my as navorser belangrik om te weet dat die navorsing wat ek doen wel 'n verskil maak en hoe wyer die navorsing beskikbaar is hoe groter is die impak daarvan. Navorsing wat wyd gebruik word en werklik momentum gee aan verdere ontwikkelings en/of verandering motiveer mens om nog verdere navorsing te doen."

Prof Madeleine Stiglingh
Hoof: Departement Belasting
Fakulteit Ekonomiese & Bestuurswetenskappe

"I do not know how business people, students or academics can survive in their working environments without Open Access. It has really made my life and work much easier and a lot more enjoyable. I have immediate information at my fingertips and sometimes even a few surprising new insights - that I have not had access to before - pop up on my computer screen. I wholeheartedly support Open Access."

Prof Ronel Rensburg
Dept. Marketing and Communication Management
Faculty of Economic & Management Sciences
