How do I access material to which the library of the University of Pretoria subscribes?

SFX@UP(next to title) will take you to the *full text of an article*

Library Search will take you to all library catalogues with holdings for a specific *book*

Ranking of references

Rank according to most recent.

Other options

Cited by: List of articles which cited a specific article

BL: Purchase an article from British Library online if your library doesn't subscribe to the journal title.

Important: Lecturers and researchers (incl. postgraduates) at the University of Pretoria can request an article unavailable from our own library via SACat (Sabinet), free of charge.

Group of ... : The article is available in various formats, e.g. post print, pre print, working paper, etc.

Alerts: Set up your own alerts at <http://www.google.com/alerts>

Google your way through the e-information highway with Google Scholar

About Google Scholar at the Library

Through Google Scholar™ you can now not only access scholarly articles published on the World Wide Web, but also access some valuable information resources to which the library of the University of Pretoria subscribes - all from a **single searchable point**.

Google Scholar™ provides a simple way to broadly search for **scholarly literature**. From one place, you can search across many disciplines and sources, e.g. the University of Pretoria library catalogue, databases, electronic full text journals, theses, articles, web pages worldwide, etc.

Access Google Scholar

Click on the Google Scholar-image on any of the library web pages

OR enter the following URL in the *Address Bar* of your *Internet Browser*:

<http://0-scholar.google.com.innopac.up.ac.za/>

When prompted, enter your **surname** and **student/ personnel number**. This will be required only once, at the beginning of your current search session.

You can conduct a *Simple Search* or an *Advanced Search* in Google Scholar.

Simple Search

<http://0-scholar.google.com.innopac.up.ac.za/>

Advanced Search

Click on *Advanced Scholar Search* next to the search box on the *Simple Search* web page.

Limit your search to the following with *Advanced Scholar Search*:

A specific **journal title**

Between specific **dates**

Within specific **subject areas**
